Tour the places associated with Sengoku romanticism

Nagahama is the hometown of the three daughters (Chacha, Hatsu, and Go) of Azai Nagamasa and Oichi, a sister of Oda Nobunaga. After Azai, Hashiba Hideyoshi (Toyotomi Hideyoshi) ruled this land. He set up Nagahama Castle, built the castle town and the foundation of the current city area, discovered the talent of Ishida Mitsunari, and hired him. At the battle of Mt. Shizugatake, brave vassals played an active role as the Seven Spears. This is the land of Sengoku romanticism that attracted famous warlords.
